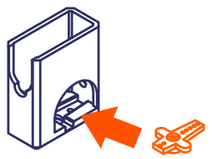
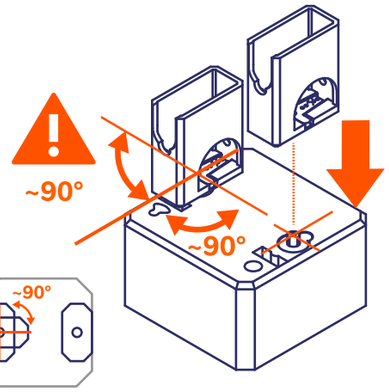
3

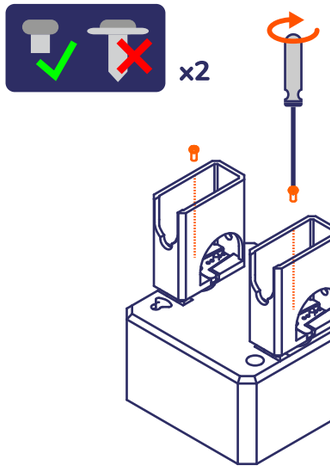


4

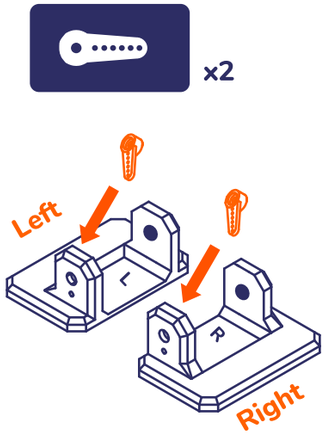


Adjust angle aprox. at 90° (center of 180° rotation).

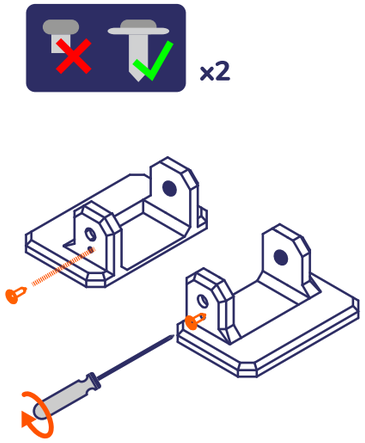
5



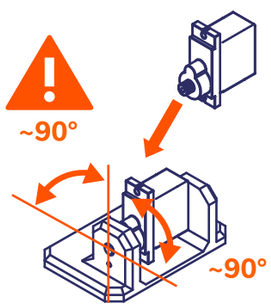
6



7

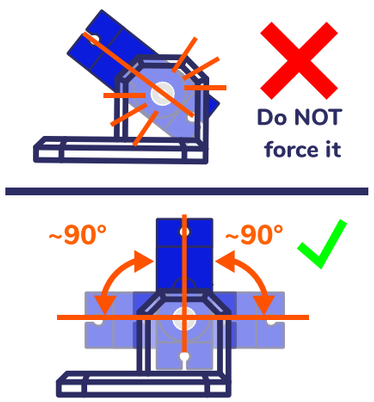


8



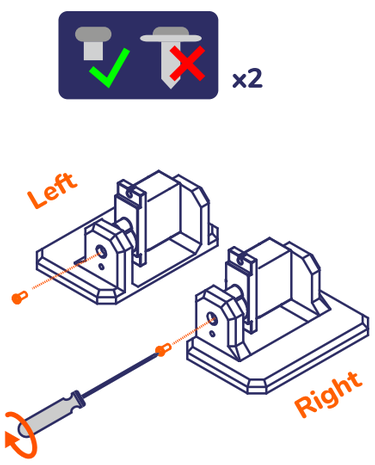
Adjust angle aprox. at 90° (center of 180° rotation).

9

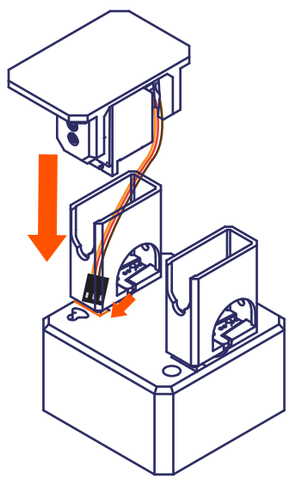


Check rotation gently, the servo goes 90° left & right

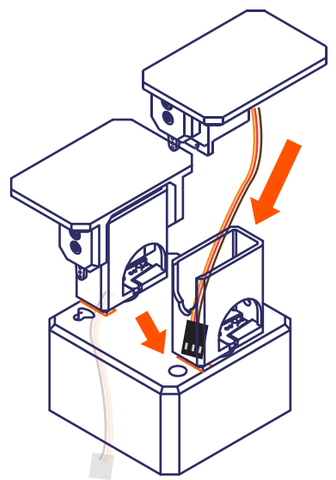
10



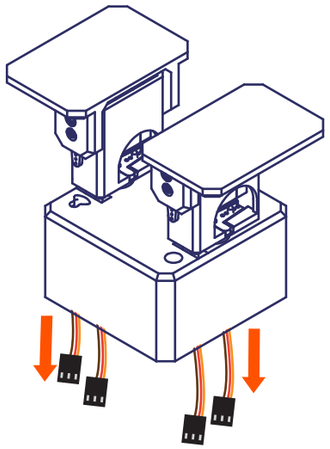
11



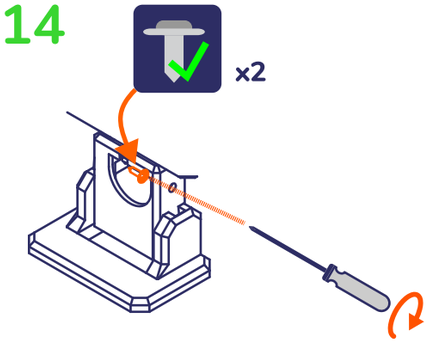
12



13

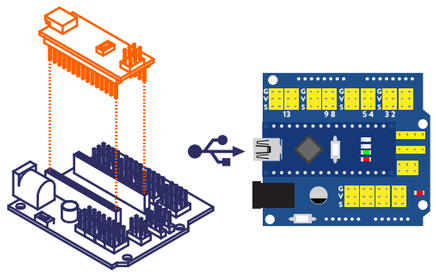


14



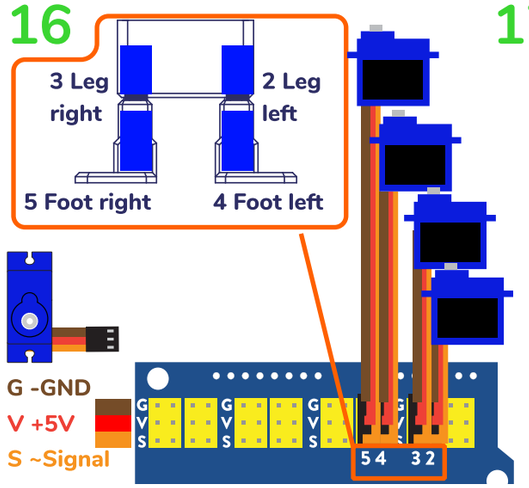
This screw is tricky but you can do it!

15



Make sure the USB connector is facing left.

16



17

ottoblockly or arduino

Test electronics & software in your computer, all downloads and guides are here:

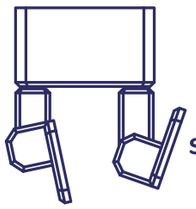
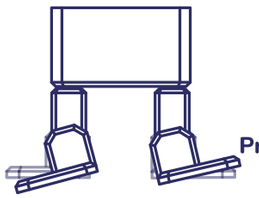
WARNING: CHOKING HAZARD
Small parts: NOT for Children under 3 years

18



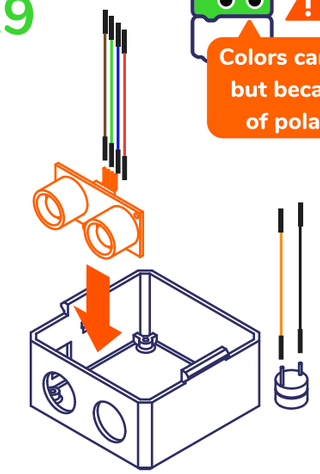
Servos were put in wrong angle

in this case go back to step 4 & 8



Properly center servos

19



Colors can vary but becareful of polarity
